Profile

I am a CSE graduate with two years of experience in web application development, specializing in React, Laravel, Node.js, MongoDB, and front-end tools like HTML5, CSS3, Bootstrap, and Tailwind CSS. I also have extensive WordPress experience, working with various themes and page builders. Proficient in VS Code, Firebase, GitHub, Heroku, Figma, and Photoshop, I continuously enhance my skills through ongoing learning. I am passionate about creating user-friendly digital solutions and collaborating on innovative projects.
